

West Florida PHRF Information needed for on line Rating Application

Below are the questions you will need to answer in the on line application form. **The form will not submit if any required field left blank.** Note that all hull and rig measurements need to be in decimal feet. Here is a conversion table from inches to decimal feet. Please DO NOT provide metric measurements.

1"=.08 2"=.17 3"=.25 4"=.33 5"=.42 6"=.50 7"=.58 8"=.67 9"=.75 10"=.83 11"=.92

Items in black type below are required. Items in **red** are required multiple choice. Items in **blue** are optional. We suggest you print this PDF and collect all answers so that you can complete application in 1 session. You can save a partial application and continue (up to 14 days) later if you email yourself the form link.

Last Name First Name

Fixed Draft or Draft Board down (decimal feet)

Street Address

Displacement in Pounds

City State Zip Code

Ballast in Pounds

Phone Primary Contact Number

Motor Inboard or Outboard

E-mail Address

Prop Type: 2,3,4 Blades Fixed or Folding/Feathering

Yacht Club List only one Primary club

Rudder Type

US Sailing member number & expiration

Rig Height: Standard, Tall, Short

Boat Name

Synthetic Standing Rigging

Sail Number

Mast Material: Aluminum, Carbon, Wood

Region where you race

Rig Type: Sloop Fractional, Sloop Masthead, etc

Class: Spinnaker, Cruising, etc

Do you have a SECOND mast: Yawl or ketch

Regatta participation level BOTY, Club, Occasional

Main Sail to mast attachment

Boat Model (be VERY specific as HUNTER 27-2 SD, not HUNTER 27 to get proper rating)

Mainsail Leech: Standard, Oversized, Fat Head

US Document or State Registration

Keel Type: Fin, Full, Center Board, etc

Manufacturer

Head Stay Attachment/Furling Type

Year Built

Main Sail Furling Boom or Mast & Battens

Hull ID number like: HUN3868JJ001, not 836

Maximum Headsail Size in %

Type of racing you will do and safety equipment required (Class Rule 9 & appendix B can be displayed for reference)

Do you fly a Spinnaker If so what type(s)

SPL-SPIN POLE LENGTH or J if no Spin Pole (non spin or asym) Needed for all boats. (decimal feet)

Length Over All (decimal feet)

J Measurement (decimal feet)

Length of Water Line (decimal feet)

I measurement (decimal feet)

Beam (decimal feet)

ISP-Use I if same hoist as headsail. **Frac rig will be different.** Needed for all boats. (decimal feet)

Draft Board Up for Center Boards, Drop Down Keels or Dagger Boards (decimal feet)

P Measurement (decimal feet)

(Continued this page Right column)

E Measurement (decimal feet)
(Continued next page Left column)

For Yawl, Ketch or Schooner, second sail

Py Measurement Hoist (decimal feet)

Ey Measurement Foot (decimal feet)

For Boats flying Asymmetrical Spinnaker any time

Jc Measurement (decimal feet)

Ic Measurement (decimal feet)

SLU Measurement (decimal feet)

SLE Measurement (decimal feet)

SLF Measurement (decimal feet)

ASMG measurement (decimal feet)

Modifications Made Since Manufacture

Other PHRF Ratings Issued for Your Boat

Spin, non-spin, multi hull and racer/cruiser finish and pay here. Cruiser, Pocket Cruiser, Multihull Cruiser continue.

Main Sail Material

Date Mainsail made as mm/dd/yy. Use 07/01/xx for unknown month/day or used sails where xx is the year of manufacture

Largest Jib Sail Material

Date Jib made as mm/dd/yy. Same date info as Main

Cruising Spinnaker Usage. If you want to use a cruising spin in a race when allowed, you need to provide Jc, Ic, SLU, SLE, SLF and ASMG measurements in decimal feet.

Bimini Usage Not at all or always

Dodger Usage Not at all or always

Other cockpit canvas

Functioning galley with stove, etc Y/N

Full interior with cushions, linens, lighting, etc Y/N

Hard wired, fixed mount VHF & external antenna Y/N

Minimum 6 ft interior head room Y/N

(Pocket Cruisers have different requirements for 4 questions above.)

(Continued this page Right Column)

Primary anchor Model or Brand

Primary anchor weight in pounds
Length of chain in feet

Size of chain (fraction of inches)

Length of rope rode in feet

Size of rope rode (fraction of inches)

Second anchor Model or Brand (Second anchor not required for Pocket Cruisers)

Second anchor weight in pounds

Length of chain in feet

Size of chain (fraction of inches)

Length of rope rode in feet

Size of rope rode (fraction of inches)

Second anchor stored at bow or any other place

Carry a dinghy Y/N and location

Carry an outboard Y/N and location

Carry a life raft Y/N and location

Radar dome Y/N and location

Wind generator Y/N and description

Permanent solar panels Y/N and describe number, size as xx by xx inches, and mounting of panels

Permanently mounted generator Y/N

Permanently mounted ice maker Y/N

Permanently mounted wind vang steering Y/N

Permanent below deck air conditioning Y/N

Permanently mounted washer/drier Y/N

Total NUMBER of propane tanks you carry

Total WEIGHT of all propane tanks when full

Other weighty non standard equipment (like Bow Thruster.)

Pay immediately with credit card (PayPal is our card processor) or print an invoice and mail in check.
